SUPPORT SERVICES FOR PARENTS WITH A CHILD OF DETERMINATION

Bennett International Consultancy Middle East is a global education consulting firm that works with families all over the world. Established in 1991 and headquartered in the US, we are also incorporated in Ireland, Hong Kong and UAE, and have worked with thousands of families, honoring the uniqueness of every student we serve. In the UAE, we offer a suite of services designed to provide expert guidance to parents of children of determination as they navigate their child's individual journey. Since we have no financial ties with any school or therapy center, a child's wellbeing is our sole mission.

First, We Listen

Every recommendation starts with understanding who your child is and what they need. Each service begins with an in-depth conversation with you and a careful review of your child's testing, assessments, and therapy and school reports. If you choose more than one service, this step is already completed, so you will never need to tell your story twice.

The Advisory Service

A comprehensive service. In an in-depth consultation, we hear your family's story and then review the testing and reports you share with us. You will then receive a personalized advisory report with practical strategies you can begin using right away. Depending on your child, your advisory report may include one or more of the following:

- Guidance on communicating with your child's school
- Recommendation of therapies and appropriate number of sessions per week
- Recommendation for clinicians and pediatric centers
- Strategies to support behavior and speech and language
- Classroom strategies for better integration

Because every child and family is different, the topic(s) discussed in your report will be customized, and the above is not a fixed list. Once you have received your report, your consultant will meet with you online to discuss it and answer your questions.

FEE 3,900 AED

A Learner Profile

Following an intake interview with you and review of your child's materials, your consultant will prepare a clear summary of your child as a learner to give to schools when applying. It will detail your child's strengths, communication skills, support needs and therapy history, all distilled in one document. Admissions and inclusion teams value a professional Learner Profile because it helps them understand your child quickly, accurately and positively, as a whole learner rather than a diagnostic label.

FEE 2,600 AED

A Curated School Shortlist

If you are looking for a new school, we will identify UAE schools whose Inclusion program will fit your child and your family's budget. Not a generic list, but potential best-fit schools for *your* child. Once you have received your shortlist, we will meet with you online to talk through each school and why we have recommended each one.

FEE 3,900 AED*

**Focuses on one child, one intended entry period, and one city or agreed area (for example Dubai, Abu Dhabi or Sharjah). Your shortlist identifies schools worth exploring. Inclusion places in the UAE are in high demand, so it can't guarantee that a school will offer a place or meet all of your child's needs.*

Knowing how to approach a school can make all the difference. This is delivered as a consultation and is followed by an email summarizing key points.

FEE **2,600 AED**

Transition Planning

A practical plan to help your child settle into a new school, covering what information to share with teachers, settling-in priorities, and establishing communication protocols. Includes a written plan and a session to review and discuss. Putting the plan into practice remains with your family and the school.

Fee customized to your child's situation and transition needs. Additional time beyond the minimum is 650 AED per hour.

FEE **From 3,900 AED**

Extended Support

For families who require ongoing support, a professional to walk beside them as advocate and experienced mentor, we offer longer-term options that enable us to facilitate and oversee communication between parents, schools, therapists, and caregivers. In such cases, we create customized packages, tailored to the needs of each family, often for the duration of a school term or longer.

FEE **Customized package**

BUNDLED SERVICES

For families choosing more than one service, we offer reduced fees, since our initial intake interview and review of reports and documentation can be applied across services.
